

**International Journal of Managing Public Sector Information and
Communication Technologies(IJMPICT)**

ISSN : 0976 - 9773 (Online) ; 2230 - 7958 (Print)

<http://airccse.org/journal/mpict/ijmpict.html>

SCOPE OF THE JOURNAL

The International Journal of Managing Public Sector Information and Communication Technologies (IJMP ICT) is a quarterly open access peer-reviewed journal that publishes articles that contribute new results in regards to the use of information and communication technologies (ICT) in the public sector around the world. ICT are becoming fundamental to the operation of government agencies, especially in light of the development of e-government applications and rising citizen expectations. As such, the International Journal of Managing Public Sector Information and Communication Technologies (IJMP ICT) seeks to establish new collaborations, new best practices, and new theories in public sector organizations around the world in regards to developing, applying, managing, measuring, monitoring, procuring, and securing ICT in governmental operations (including civilian, military, health care and education applications). The journal thus provides a platform to disseminate new ideas and new research, advance theories, and propagate best practices in the management of ICT in public sector organizations at the international, national, state/provincial and local levels. The International Journal of Managing Public Sector Information and Communication Technologies (IJMP ICT) offers a forum in which academics, consultants, and practitioners in a variety of fields can exchange ideas to further research and improve practices in all areas of governmental operations and ICT strategies.

Authors are solicited to contribute to the journal by submitting articles that illustrate research results, projects, surveying works and organizational experiences that describe significant advances in information and communication technologies in governmental organizations.

Topics of interest include, but are not limited to, the following:

Topics of interest include, but are not limited to, the following

- Accessibility
- Analysis
- Budgeting
- Cloud computing
- Citizen participation
- Content development
- Cyber public relations
- Data mining
- Digital government
- Digital rights management

<http://aircse.org/journal/mpict/ijmpict.html>

- Education, training courses and curricula
- e-Governance (Electronic Governance)
- e-Learning (Electronic Learning)
- e-Publishing (Electronic Publishing)
- Electronic healthcare
- Enterprise architecture
- Geographic information systems (GIS)
- Health care
- Immigration issues
- Implementation issues
- Information management
- Information security
- Innovation
- Intelligent systems
- Inter-agency information sharing
- Knowledge management
- Law enforcement
- Management of technology
- Mobile applications and services
- Open source
- Online education and learning
- Organizational culture
- Political issues
- Protocols and Standards
- Public participation
- Records retention
- RFID (radio frequency identification)
- Shared services
- Strategy
- Stakeholder issues
- Trust
- Universal access
- Value chain issues
- Web 2.0
- Adoption and diffusion of technology
- Biometrics
- Change management
- Citizen services

- Computer-mediated communication
- Cyber-crime and cyber-terrorism
- Data warehousing
- Digital divide
- Digital libraries
- ERP
- Emergency and disaster response management
- e-Government (Electronic Government)
- e-Payments (Electronic Payments)
- e-Voting (Electronic Voting)
- e-Taxation (Electronic Taxation)• Electronic Data Interchange (EDI)
- Electronic records
- Evaluation
- Group decision support systems (GDSS)
- Identity management
- Impacts/implications
- Information access and availability
- Information preservation
- Infrastructure
- Intelligent organizations
- Internet
- Knowledge networks
- Legal and regulatory issues
- m-Government (Mobile Government)
- Multimedia applications
- Online auctions and technologies
- Peer-to-peer social networks
- Poverty
- Public administration
- Privacy
- Reengineering
- Social networks
- Storage issues
- Supply chain issues
- Ubiquitous Computing
- Urban issues
- Virtual Reality
- Workforce issues

Members of the Editorial Board

Editor In Chief :

David C. Wyld, Southeastern Louisiana University, USA

Editorial Board :

Ahmed Y. Nada, Al - Quds University, Palestine

Lylia Abrouk, University of Burgundy, France

Binod Kumar Pattanayak, Siksha Anusandhan University, India

S Azizzadeh, Islamic Azad University, Iran

Mohamed Firdhous, University of Moratuwa, Sri Lanka

Jayant Mishra, Rajiv Gandhi Proudyogiki Vishwavidyalaya, India

Chris Panagiotakopoulos, University of Patras, Greece

Antonio Rodriguez.M, Universidad Autonoma Del Estado De Morelos, Mexico

Baker. H, American University, Washington

Maria Daniela Lopez De Luise, Computer Integrated Interventional Systems
Laboratory, Argentina

Madhuri Rao, Mumbai University, India

Labeeb, Labib Francis Gergis, Egypt

Ramayah A/L Thurasamy, Universiti Sains Malaysia, Malaysia

Azlan Bin Mohd Zain, Universiti Teknologi Malaysia, Malaysia

Denivaldo Lopes, Federal University of Maranhao, Brazil

Mccusker Rob, Teesside University Business School , UK

Natarajan Meghanathan, Jackson State University, India

Nirbhay Chaubey, Institute of Science and Technology for Advanced Studies and
Research, India

Rafiqul Zaman Khan, Aligarh Muslim University, India

Sachar Paulus, Brandenburg University of Applied Sciences, Germany

Fawzi Albalooshi, University of Bahrain, Bahrain

Jeremy (Zheng) Li, University of Bridgeport, USA

Paper Submission & Manuscript preparation Guide

Paper Submission

Authors are invited to submit papers for this journal through E-mail : ijmpict@yahoo.com or ijmpict@airconline.com. Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated for this Journal.

Review Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. weak Accept with major changes
4. Reject

The review process may take approximately two ~three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.
