Scope of the Journal

The International Journal of Software Engineering & Applications (IJSEA) is a Bi-Monthly open access peer-reviewed journal that publishes articles which contribute new results in all areas of the Software Engineering & Applications. The goal of this journal is to bring together researchers and practitioners from academia and industry to focus on understanding Modern software engineering concepts & establishing new collaborations in these areas.

Authors are solicited to contribute to the journal by submitting articles that illustrate research results, projects, surveying works and industrial experiences that describe significant advances in the areas of software engineering & applications.

Topics of interest within the scope of this issue include, but are not limited to, the following areas:

- The Software Process
- Software Engineering Practice
- Web Engineering
- Quality Management
- Managing Software Projects
- Advanced Topics in Software Engineering
- Multimedia and Visual Software Engineering
- Software Maintenance and Testing
- Languages and Formal Methods
- Web-based Education Systems and Learning Applications
- Software Engineering Decision Making
- Knowledge-based Systems and Formal Methods
- Search Engines and Information Retrieval
- Devops Models, Practices, Challenges

Review Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well-established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. Weak Accept with major changes
4. Reject

The review process may take approximately two ~three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.
